Invitation

Dear colleagues,

It's a privilege to announce the 3rd Greco-Israeli Hematology Meeting, which will be held in Thessaloniki, 10-12 September 2020.

After two successful meetings, in Thessaloniki 2018 and Tel Aviv 2019, we are convinced that this meeting, which has been organized as International Congress will be even more productive. New data in the most important topics of Hematology will be presented in the scientific program. We also continue the successful sessions of Working Groups, which are active, offering the participants the opportunity to discuss their work and research.

In this meeting, we have the pleasure to welcome our colleagues from Cyprus, expanding the borders in the field of collaboration.

We invite you all to join the meeting, because "Joint effort opens new horizons in Hematology".

We are looking forward to welcome you in Thessaloniki in September 2020!
